

# Introducing EM Xpress

## 11 a.m. to 11 p.m. Daily

Goal: Reduce EMS waiting time  
so you can begin responding to other calls as soon as possible.

### How It Works:

- Bring your patient to Valley Hospital
- Check-in with the Transfer of Care software
- Give report to the Charge Nurse or the EM Xpress personnel
- Offload your patient
- Done - the Charge Nurse will check you out – drive safely!
